THE FUTURE OF PACKAGING.

THE PROTOTYPE

molu.

THE FUTURE OF PACKAGING.

comes in layer of strips

flexible to wrap around products

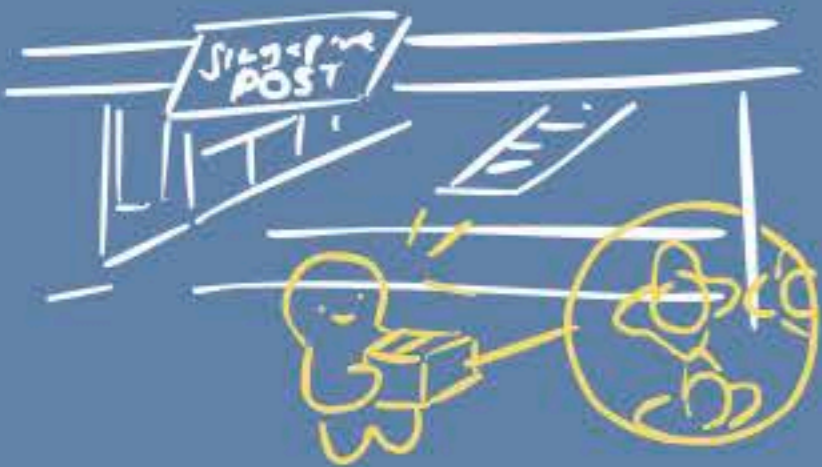

cushioning layer of protection

able to accommodate to all products

LIFE WITH MOLU

The seller is back from SingPost with a package of 'MOLU', ready to pack his sold glassware for his next shipment!

The glassware arrived safely to the buyer's house, thanks to the strong protective MOLU packaging!

The 'MOLUcules' are easily dissolved under high pressure water

The dissolved solution can be used as fertiliser for plants

MOLU packaging can be reused unlimitedly! It is up to "U" to play your part for the environment
